

EDGEWOOD COLLEGE

– Career Development Department –

Career Development Resources

Curricular Integration

Class Discussions and Workshops

Let us know a topic or format: we will facilitate a class discussion, career-readiness workshop, or help coordinate alumni or employer panel.

Career Modules

Interested in embedding a career-readiness assignment? Connect with us to discuss using a pre-built module into your class Backboard.

Discipline Specific Integration

Meet with us to discuss your students' needs! We can work with you to design discipline specific resources and tools.

Career Development Events

Consider requiring or offering extra-credit for students to participate in career development events such as mock interviews and the career mixer.

Handshake

For Students

- Students can schedule appointment with Career Development staff
- Upload resumes and cover letters for review
- Utilize our career resource library
- Access personalized internship and job postings
- Build a public profile to network with alumni, employers, and students from other universities
- Learn about and register for upcoming career readiness events

For Faculty and Staff

- See Career Development programming
- Review student profiles
- Manage program specific experiential learning opportunities
- Collaborate with Career Development to manage customized programming

Developing Career Capital

Experiential Learning Management

Experiences through Handshake provide a streamline management system for helping students define and meet learning objectives throughout their internships/rotations/clinicals.

On Campus Recruiting

Opportunities to connect with employers in a small scale setting. Employers available for on campus tabling, interviews, and presenting in classroom settings.

Mock Interviews and Career Mixers

Each semester, student have multiple opportunities to network with employers on campus through annual Career Mixer and semi-annual Mock Interviews.

Inclusive Internship Program

Inclusive Internship Project enhances the educational experience of students, relieves the financial strain that accompanies unpaid opportunities, and builds collaboration with the local community

- Scaling stipend provides students with up to \$2500 paid throughout the semester
- Developed network of over 80 Dane county employers
- Students and supervisors complete mid-term and final reflections providing
- Facilitates students and employers benefiting from internships
- Currently funded through the Oscar Rennebohm Foundation

Communication

Career Connection Bulletin

Weekly student email highlighting open internship and job postings along with upcoming career events.

Wingra Weekly and EC Today
